Yellowknife City Tours

Welcome to our “little big city”

Visitors to our city can enjoy camping, hunting, fishing, hiking, world class dining, the lively performing arts scene, and much more.

But before you dive into Yellowknife life, let Bob take you on a tour of both old and new. He's a 30-year resident of the North and has witnessed its history and its promise. Bob counts some of the old pioneers and today's government leaders among his friends and neighbours.

Join the tour and let Bob share his stories and the history of our area with you!

Historic Yellowknife

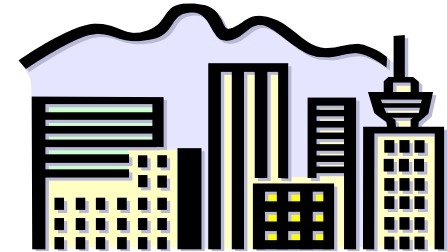

The tour begins in Old Town where the mining community sprang up in the 1930s.

You'll see:

- the Wildcat Café
- the old Mission House
- the log cabin where the first bank operated
- our first schoolhouse
- our oldest general store, Weaver and Devore.
- the aboriginal community of N'dilo
- a colourful community of houseboats
- the ice road to Dettah
- Ragged Ass Road
- Pilots' Monument

Other tour stops include:

- Kam Lake Industrial Park
- dog mushing kennels
- the airport district
- Diamond Row
- the Yellowknife Golf Club
- Giant and Con mines
- the Yellowknife River
- Legislative Assembly of the Northwest Territories
- Prince of Wales Northern Heritage Centre

Yellowknife Today

Today, Yellowknife is a “little big city” of almost 21,000 people drawn from more than 100 of the world's cultures.

Government at all levels is now our top employer, followed closely by mining, transportation and communications. A multitude of businesses has emerged to serve the major industries.

Yet, with all of this, Yellowknife is still only a few minutes from solitude, clean air and water, and life the way it used to be. It's a place where people are still warm and approachable.

We're friends you haven't met yet!
